Re: Flu Season

As we enter the flu season this year, with the H1N1 virus circulating, we are asking our residents do the following when reporting maintenance issues or visiting the office.

- If any member of your household has the flu or has symptoms and you suspect the flu, please only request emergency maintenance work and notify management of the condition so that our workers can properly protect themselves. If you have a non-emergency maintenance issue, we would appreciate it if you would wait until all members of your household are no longer contagious.
- Phone, email or fax your manager to deal with management issues if you are showing any flu-like symptoms.

Please follow guidelines from medical professionals on helping to stop the spread of the H1N1 and regular flu viruses this year. Education and good hygiene are what we are hearing are the best ways to stay healthy.

Visit www.flu.gov for more information.

Thank you for your cooperation.
